

## Crossfire VBC COVID-19 Guidelines for 2020-21 Season

Giving kids an outlet to play is our goal, and we understand the benefits for their physical, mental and emotional well-being, however, we also understand the risks due to COVID-19. Abiding by recommended requirements, as well as practicing safety measures at home and in public is the only way this activity will be a success.

If a Crossfire club member does not agree to abide by ALL of these guidelines, we ask that the player does not participate in Crossfire VBC volleyball spring season.

Our volleyball club will comply to all area, county, state and school district protocols for COVID-19 prevention. We will follow and use these essential parameters:

- All individuals are required to forego participation prior to arrival at the facility if they or someone in their household group is sick, has a pending COVID-19 test, has tested positive for COVID-19, or has been in contact with someone who is sick, has a pending COVID-19 test or has tested positive themselves for COVID-19.
- Badger Region, our state organization, requires all participants to be familiar and follow the CDC Guidelines for COVID-19 and how to determine sickness.
- Not more than 25 people will be allowed in any Milton School district room or gym area at one time. This includes all players and adults. Parents will be encouraged to stay outside.
- All individuals inside a building must wear a mask at all times, except to eat or drink.

Each player will enter a specific door, greeted by an adult upon arrival for their COVID check-in, having their temperature checked and answer basic health questions.

Keep the following in mind during practice:

- Wash hands with soap and water or use hand sanitizer, refrain from touching their face, keep self and equipment bags 6-feet from other players' belongings.
- Bring their own water bottle(s) and write their name on it.
- Use hand sanitizer, wipes and other sanitization equipment that will be on site.
- All team members will be cleaning and wiping down the area and equipment, including volleyballs, at the beginning, middle and end of each practice.
- All participants will wear a mask at all times once they enter the facility, unless they are eating or drinking. This includes while they are playing volleyball, on or off the courts.
- Individuals should have a spare mask and their own hand sanitizer available.

Coaches will keep record of all participants for each practice or activity monitoring players for any fever, cough, sore throat, shortness of breath or close contact with someone with COVID-19. Coaches will report to the club director, Bonnie Stalker, immediately, if any participant is non-compliant or answers yes to any of the screening questions.

Coaches, athletes and their parents/guardian will sign a Badger Region COVID-19 participation waiver in order to participate in any activity under Crossfire VBC available on our website under COVID or forms.

Tournaments will have their own COVID prevention guidelines, and will be shared with everyone during the week prior to the competition. Those are dependent on site, state and local protocols along with Badger Region guidelines, found at [www.badgervolleyball.org](http://www.badgervolleyball.org). This includes how parents, friends and family can watch the game, whether in person or online.
